

MB Docket No. 04-233 I am a loyal listener to K-LOVE Christian Radio. I enjoy that my entire family can listen to the radio without worrying about the content. My children sleep with this station in the background and it helps them have peaceful dreams. The entire community benefits from this station as more and more kids listen to it and it gives us a positive message. I worry that another means of broadcast over the LPFM would not provide the same quality and good clean radio for our families. Please do not have K-LOVE be replaced by another station.
